Re: Water and Sewage Works Study
Addendum Process No. 3
Town of South Bruce Peninsula

Dear Sir or Madam,

The Town of South Bruce Peninsula has commissioned a review of options presented in Addendum No. 2 - REVISED to the previously completed Water and Sewage Works Environmental Study Report (ESR) for the Sauble Beach and Hepworth areas. The Municipality has retained GENIVAR Consultants LP to complete this review and prepare Addendum No. 3 to the ESR.

The recommended wastewater servicing option identified in Addendum No. 2 – REVISED involved servicing of only the Development Control Area (DCA) of Sauble Beach. The proposed wastewater treatment plant location is east of Sauble Beach at the north end of Municipal Road (Part Lot 18, Concession C) near the Sauble River.

Alternative sewage servicing options will be examined under the Addendum No. 3 process including:

- Review sewer service area
- Review wastewater treatment plant locations
- Review wastewater treatment process
- Review effluent discharge locations

Please find attached a copy of the Public Notice for this phase of the project. This Notice also serves as an invitation to a Public Meeting on Saturday, July 10, 2010 at the Sauble Beach Community Centre on Community Centre Drive. The Public Meeting will consist of two (2) sessions; Session One from 10:00 a.m. to 12:00 p.m., and Session Two from 2:00 p.m. to 4:00 p.m.

Your input is encouraged throughout the process. If you have any questions or concerns, please contact the undersigned.

Yours truly,

GENIVAR Consultants LP

Public Notice

Town of South Bruce Peninsula Water and Sewage Works Study Former Township of Amabel and Former Village of Hepworth Addendum Process No. 3

The Town of South Bruce Peninsula has commissioned a review of options presented in Addendum No. 2 - REVISED to the previously completed Water and Sewage Works Environmental Study Report (ESR) for the Sauble Beach and Hepworth areas.

The preferred wastewater servicing option, as recommended in Addendum No. 2 - REVISED, will be reviewed under a new Addendum No. 3 process.

Addendum No. 2 - REVISED recommended sewer servicing for only the Development Control Area (DCA) of Sauble Beach. The proposed wastewater treatment plant location for this preferred option is east of Sauble Beach at the north end of Municipal Road (Part Lot 28, Concession C) near the Sauble River.

Alternative wastewater servicing options will be examined under the Addendum No. 3 process, including:

- Review sewer service area
- Review wastewater treatment plant locations
- Review wastewater treatment process
- Review effluent discharge locations

This notice also serves as an invitation to the community and other interested parties to attend a Public Meeting scheduled for:

Saturday, July 10, 2010

Session One: 10:00 a.m. to 12:00 p.m.

Session Two: 2:00 p.m. to 4:00 p.m.

at Sauble Beach Community Centre on Community Centre Drive

The Public Meeting will provide an opportunity for residents to learn more about the potential wastewater options and to provide comment regarding the Addendum No.3 process. Representatives of the Consultant (Genivar Consultants LP) and the Town of South Bruce Peninsula will be on hand to answer questions. The format for both sessions will be the same.

Any revisions to the Environmental Study Report (ESR) will be carried out in accordance with the Municipal Engineers Association *Municipal Class Environmental Assessment* document. Following consideration of technical, economic, environmental and social issues, as well as public consultation, Addendum No. 3 to the ESR Report will be prepared and made available for public review.

Public input is encouraged throughout the process. If you have any immediate comments or wish to add your name to the project mailing list, or if you will not be able to attend the meeting and have comments or questions, please contact:
