After spending many vacations @ Sauble Beach over the years, we finally built our own home in 2009-10. With the new construction we paid for new septic system which has been installed based on code & as required for the property. The additional costs which are being proposed to the residents for sewers are NOT affordable & are unreasonable. We don't need this & don't want it. It appears that the push for these sewers are for the benefit of business users & future developers that will gain financially through business growth at Sauble. If that is the case, then let the business owners & developers apply for govt funding & pay for the remainder themselves.

If more space is required for your comments, please use and attach an additional page(s)

page 02

Based on the discussions at the meeting on Saturday Oct 9/10, it appears that there is no study proving that the sewers are required for the safety of our water.

I feel that this is a terrible time to be
considering a project of this magnitude (too
many people are still trying to recover from
the recession). Besides why should I have
to pay for something I do not need!
My property has an excellent septic tank
and a proper well which is tested regularly.
Let those who don't meet these pay for
it if their property needs a better system!

- Praise to Phil Dwyer for keeping the speakers in check and the meeting moving forward
- #1 Priority should be to determine what and where the problems are - is it mainly in the downtown area and the west side of the Parkway that is in question?
- could septic systems in those areas not be tested and monitored if they are found to be defective?
- Test results for pollution in defined areas should be made available to the public

Water & Sewage Works Study - Pg 2

Oct/2010

- private land should definitely not be used in any way for this project
- 10% funding from The Government is completely unacceptable and should not even be considered
- at least 50% and preferably 66% funding should be forthcoming to make this project viable for the majority of the residents
- The current council ^(before man's election) and whoever else lobbied The Government have failed miserably in this respect
- is The #1 "Beach in Ontario" (which is a Provincial Asset) not entitled to more Government funding - to think not is ludicrous!
- if The Government can't afford this project, then our residents certainly can't afford it.
- The comments/votes for and against this project should be independently monitored and the results made available to the public as soon as possible

I AM A SEASONAL COTTAGE OWNER ON
THE SAUBLE RIVER. I AM AGAINST THE SEWER
PROJECT. THE COST, SEWAGE TREATMENT PLANT
AND THE POSSIBILITY OF RAW SEWAGE AND
ECOLI and OTHER CONTAMINANTS IS REPULSIVE
TO ME.

I SUPPORT MANDATORY SEPTIC SYSTEMS INSPECTIONS
AND MY WELL.

- CONCERNS:
- 1.) WHY WEREN'T ALL OTHER RESIDENTS NOTIFIED IN A TIMELY FASHION (WE ALSO PAY TAXES, WHICH GO TO OUR LOCAL COMMUNITY - SAUBLE BEACH)
 - 2.) IT WOULD APPEAR THAT BECAUSE WE ARE ^ASEASONAL RESIDENT WE DON'T HAVE A STAKE IN WHAT HAPPENS WITHIN "OUR" COMMUNITY.
 - 3.) WE ARE STRONGLY IN OPPOSITION TO HAVE ^{BEAUT}A SEWAGE TREATMENT PLANT.
 - 4.) AS RESIDENTS OF SAUBLE BEACH WE STAND STRONG.

Subject: Sewage Treatment Plant

Phyl Dwyer;

We are a seasonal cottage owner on the Sauble River and are opposed to the building of a sewage treatment plant.

We support mandatory septic system inspections and maintenance programs which could be put forth by the municipality.

As seasonal (and soon to be full-time residents) we want our voice to be heard.

Thank you;

Mary and Al Noonan
