

# Some Changes Needed at Beach Festivals

## Owen Sound Sun Times

September 6, 2011

by Bob Durnford

Editor:

My wife and I have owned and operated the Putterama mini golf at Sauble Beach for the last six years.

When I heard of the millions of dollars Sandfest generates for Sauble business, I would like to say that it is consistently one of the worst money-making weekends I have all summer. It does generate a lot of pollution from all the vehicles and a lot of litter to be taken to our landfill.

I say keep the sandcastle competition, volleyball, windsurfing, etc., but get rid of the beer tents and the music.

People have and will continue to come to the beach for the 10 kilometres of sand and water.

Spend the money used for tent rental and bands on improving things like washrooms, litter containers, benches, landscaping - things to improve the town in general
