

Creating Our Future

The Town of South Bruce Peninsula is currently pursuing the development of a Community-Based Strategic Planning Process through an open and transparent public process that will guide future directions in the Town of South Bruce Peninsula over the next ten years. Over the next few months, the Town of South Bruce Peninsula will be inviting residents, community groups and businesses to share their views and perspectives on the Town of South Bruce Peninsula they would envision in 2021.

The consultation activities will begin shortly with the assistance of DPRA Canada, an independent consulting firm hired to assist the Town of South Bruce Peninsula with the development of the Plan.

Please stay tuned to this page for up to date information.
